### **Presentation Synopsis:**

Audiovisual conservation is a complex network of limitations. The content itself is restrained by its container—be it fading film or noisy videotape—and our conservation efforts are similarly limited by our equipment and the incongruity of analog and digital media. What can be done to reconstruct these images to their fullest potential, and is it possible to go too far?

**Presenters:** Jacob Landry, Audiovisual Conservation Intern

Please consider attending our AGM on September 25, 2025, and becoming a member of our society. If you are interested in serving on the board, positions up for election are President, Secretary and two Director-at-Large.
